

LIVING  REVIEWS  
*in relativity*

*an up-to-date open access review journal  
in all areas of relativity*

<http://relativity.livingreviews.org>

## ONLINE FEATURES

- reference tracking, errata tracking
- advanced navigation support for equations, images, footnotes
- support for additional material (movies or program code)
- download of various article formats and bibliographies
- online searchable reference database
- history of article revisions

The screenshot shows the homepage of the journal 'Living Reviews in Relativity'. The page has a blue header with the journal title and ISSN 1433-8351. A navigation menu on the left lists sections like 'General Information', 'About Living Reviews', 'Projects', 'Users', 'Logins', and 'Mirror Servers'. The main content area features a 'welcome to LIVING REVIEWS in relativity' logo and a 'latest publication' box dated 1 June 2006, mentioning a paper by Luc Blanchet. Below this is a box for the 'LRR Reference Database' with over 10,800 records. The right sidebar contains links for 'Articles', 'Help', and 'Search'. The footer includes the copyright year (1997-2006), the publisher (Max Planck Institute for Gravitational Physics), and a disclaimer.

The screenshot shows the article page for 'The Confrontation between General Relativity and Experiment' by Clifford M. Will. The page has a white background with a blue header. The article title is prominently displayed in the center. Below the title is the author's name, Clifford M. Will, and his affiliation: McDonnell-Peter Center for the Space Sciences, Department of Physics, Washington University, St. Louis, MO 63130, U.S.A. The abstract section is visible, starting with 'The status of experimental tests of general relativity and of theoretical frameworks for analyzing them is reviewed. Einstein's equivalence principle (EEP) is well supported by experiments such as the Eötvös experiment, tests of special relativity, and the gravitational redshift experiment.' A table of contents is visible on the left side of the page.
